

Detailed Results:

National Federal Vote Intention (decided and leaning voters only)										
<i>Q. If a federal election were held tomorrow, which party would you vote for? [If undecided] Even if you do not have a firm idea, are you leaning towards a party? [If yes] As it stands, towards which party are you leaning?</i>										
	LPC	CPC	NDP	GP	PPC	BQ	Other	Sample Size		Margin of Error (+/-)
								Weighted	Un-weighted	
Ontario	40.8%	29.9%	10.9%	11.9%	4.8%	–	1.8%	2244	2393	2.0

Methodology:

This survey was conducted using High Definition Interactive Voice Response (HD-IVR™) technology, which allows respondents to enter their preferences by punching the keypad on their phone, rather than telling them to an operator. In an effort to reduce the coverage bias of landline only RDD, we created a dual landline/cell phone RDD sampling frame for this research. As a result, we are able to reach those with a landline and cell phone, as well as cell phone only households and landline only households.

The field dates for this survey are August 8-September 5, 2019. In total, a random sample of 6,558 Canadian adults aged 18 and over responded to the survey (including a sub-sample of 2,636 Ontario residents). The margin of error associated with the total sample is +/- 1.2 percentage points, 19 times out of 20.

Please note that the margin of error increases when the results are sub-divided (i.e., error margins for sub-groups such as region, sex, age, education). All the data have been statistically weighted by **age, gender, and region** to ensure the sample's composition reflects that of the actual population of Canada according to Census data.
